

Home Portraits

How does it work?

Portraiture is the most popular of the services I offer. You can either come to my studio or I can visit you at your home, or at any other location that is convenient for you. A typical session would last about an hour and I take between twenty and thirty photos. Any number of people can pose for the pictures and I have a variety of backgrounds and props I can bring with me.

As I shoot with a very high quality digital camera, we can review the proofs immediately. You can choose to order as many prints as you wish (even none at all). There is no obligation to buy if you do not like what you see. If you want time to consider your choice, or show the results to family and friends, I can supply a proof CD at no additional charge within a day or so. Alternatively, I can create a private page on my website. This page would be password protected and accessible only by those to whom you provide both the link and the password.

I can add a number of effects, such as sepia toning and vignetting to your prints if you wish - and crop the image to a size of your choice. Printing the a photo on canvas is possible, as is compiling a book of photos or creating a set of greetings cards - just ask me what is possible.

Of course, the subject needn't be just you, your family or your friends. You might like to have a good quality photograph of a treasured possession, your pets, or your house. Just let me know what you would like.

You can see some more of the images I've produced for clients in the past by clicking [here](#).

How much does it cost?

I charge £20 for initial sitting if it takes place at my studio and £40 for sittings within 75 miles of Huntingdon. (I am also happy to have sittings at more distant locations by prior agreement.) Print prices are given below. I allow a credit of £20 against this fee if the cost of your prints exceeds £75 unframed or £175 framed.

Print size (in)	Price including VAT
6x4	£6
7.5x5	£10
12x8	£20
15x10	£40
24x16	£60

- Any other print size is also possible: the cost of other sizes is simply the cost of "the next size up". For example, if you wanted a 5"x5" crop of a particular photo, then that would cost £10.
- Prices for other products - such as greetings cards, canvas prints or personalised albums vary depending on exactly what is required. Prices start from £100 for framed canvas prints, £40 for a 20 page album and £16 for a pack of greetings cards or postcards. Please ask me for a quote if you are interested in any of these items.

A CD of low resolution copies of all the photos taken during the shoot costs £10. These images are suitable for viewing on a computer monitor or television set, but not for printing. You could also email copies to your friends and family overseas.

I give a 10% discount on all print and CD orders over £125 or a 20% discount for orders over £250. Sepia toning, vignetting and other simple effects are free of charge: just let me know what you would like. If you would like me to post your pictures to friends or relations elsewhere, I charge carriage at cost.

I retain digital archive copies of all purchased portraits, so you can order additional copies at any time in the future without paying an additional sitting fee.

All prices on this page include VAT at 17.5%. I accept payment by cash and cheque.

What next?

If you'd like to book a sitting, or if you have questions or queries about sitting for portraits, please don't hesitate to [get in touch](#). You can download a pdf version of this page [here](#).
